Action. Horror. Thriller. There's a new genre film company in town and its called Renegade Worldwide.

Renegade is a subdivision of Crystal Sky, the same company that is bringing you Marvel's Ghost Rider, Deathlok, and Werewolf by Night and a live-action version of the world's best selling video game, *TEKKEN*.

Renegade Worldwide, under the guidance of Steven Paul and Patrick Ewald, will be introducing a slate of hot genre titles all budgeted under \$10 million US. Among the titles that Renegade will be selling are: *DEADLY COURSE*, a thriller, starring Academy Award winner Jon Voight; the political thriller, *THE SECRET WAR*, a ShowTime Networks co-production; *3:44*, an edgy story that set against the underground music scene which stars the *MATRIX*'s CARRIE ANN MOSS; and finally, from Zalman King, the same mind that brought you *THE RED SHOE DIARIES* and *9 1/2 WEEKS* come two erotic features, *CHROMIUM BLUE*, set on the high seas and *THE ETERNAL*, set in the sexy world of beautiful vampires. *CHROMIUM BLUE* and *THE ETERNAL* will air on ShowTime after dark this year.

In addition, Renegade will also be offering a slate of titles coming available that stars Anthony Michael Hall (USA's *DEAD ZONE*), Robert Downey, Jr., Samuel L. Jackson, Edward James Olmos, Eric Christian Olsen (star of *NOT ANOTHER TEEN MOVIE* and this Summer's *DUMB AND DUMBER II*), as well many others.

"We don't want to forget our roots. We want to return to the type of movies that helped build our parent company, Crystal Sky," explains Steven Paul. "With Renegade, you get new energy, new product and 25 years of experience."

Adds Patrick Ewald, "There is a real lack of star-driven, low-budget, high-quality movies in the market place. With the launch of Renegade Worldwide, buyers will now have a great source for this kind of product." Renegade Worldwide is located in Suite 551 of the Loews Hotel.
